CASE STUDY

Gene Lobe Field
Spectator Protection Netting

BREMERTON, WASHINGTON

PNP
PACIFIC NETTING PRODUCTS
INCORPORATED

APPLICATION: SPORTS AND RECREATION

Pacific Netting Products was contracted to manufacture and install a spectator protective netting system behind home plate and along the first and third baselines at Gene Lobe Field at Kitsap County Fairgrounds, the home of the Kitsap BlueJackets, an amateur baseball team. The team played from 2004 to 2016 in the West Coast League, a collegiate summer baseball league. The netting prevented foul and tipped balls from entering the spectator area adjacent to the field.

INSTALLATION FEATURES

- 1 ¾" x 1 ¾ #18 black twisted knotted Dyneema® netting
- Square mesh construction
- 3/8" braid black PTS-12 nylon border rope on all edges
- Corrosion-resistant support wires
