HDPE FLOAT PLANE DOCK

Pacific Netting Products designed and manufactured a custom 24' x 60' float plane dock with a teeter-totter float ramp.

KEY FEATURES

- Spacious deck space for passenger loading and offloading
- Self-loading drive-on ramp for dry land staging
- CNC-fabricated HDPE beam blocks for attachment of structural beams and equipment
- Timber frame deck
- Modular construction for ease of transport and assembly
- Foam-filled HDPE pontoons for increased stability
